

HELPFUL HINTS WHILE IN INVESTIGATION PHASE OF AN AIRCRAFT ACCIDENT

The Lawyer and inexperienced investigators may find the investigative techniques, hints and clues useful. Some data gathered over four decades is dated and no longer cutting edge. The lessons learned were taught by some of the worlds most accomplished Aircraft Safety Investigators. My OJT and mentoring came from Navy and Airline safety work, 450 accident evaluations, investigations or litigations and from:

SAM TAYLOR, IRA RIMSON, CHUCK MILLER, RALPH HARMON,
JACK WETZLER, RUSS SANFORD, GUS ECONOMY, VIC HEWES,
BILL RODDEN, RON STEARMAN, ART CHILDERS, LARRY
BOLES,
PAUL McCARTHY, AL DIEHL, SAMUEL DON SMITH, RON
SHEPARD, JULIAN HAYES and JIM BURNETT
